Serial Nos. 112

Part B. for December 1915

SUBJECT

Proposal of the Central Committee, Malnad Improvement Shimoga, to shift the residential areas away from the paddy fields, as the removal of paddy fields from the residential areas involves a considerable cost.

G. O. No. 4405-11 dy. 17. 12. 15.

Approves of the proposal of the Central Committee M. I. Shimoga, to shift the residential areas in the Malnad away from the paddy fields, provided that the site chosen is situated on dry ground and that steps are taken to lay out the houses, roads, drains &c. according to approved Sanitary rules.

FILE HEADING.

Removal of paddy fields away from residential areas.

From

The Secretary Central committee, M. J. Shimoga.

No. 21 Dated 28-10-15 Received 1-11-15

Diary No. 1630	Enclos.	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

States that the Central Committee are of opinion that it is easier to shift residential areas than to remove paddy fields, as the latter measure involves considerable cost and requests orders in the matter.

NOTES AND ORDERS.

In the order of the 24th February 1914, it is suggested that immediate measures should be taken to keep paddy fields away at some distance from villages and other residential areas. The above order address

NOTES—First Sheet.

Serial No.

have been issued on the suggestion of Mr. Hitchcock the then Sanitary Commissioner and of Mr. Mathias (vide para 5, page 51 and para 8, page 59 of the printed Collection on Rural Improvements) Submitted for orders.

2. If the Committees find it easier and cheaper to shift residential areas than to remove paddy fields, there is no objection to their doing so. The chief thing is that residential areas and paddy fields should not be in close proximity, and it is immaterial how this object is achieved. The Central Committee may be informed accordingly

No. 21

Office of the Secretary, Central Committee,
Malnad Improvement Scheme,
Dated Shimoga, the 28th October 1915.

Sanitary 60-15

From

S.N. Appanna Iyengar, Esquire, B.A., B.L.,
Secretary, Central Committee,
Malnad Improvement Scheme, Shimoga.

To

D.M. Narasinga Rao, Esquire, B.A., B.L.,
Secretary to the Government of Mysore,
General Department, Bangalore.

Sir,

I have the honour to state that while discussing the means whereby paddy fields may be kept away from residential areas, the Central Committee at its meeting held on the 4th instant opined "that it is easier to shift residential areas than to ~~shift~~ remove paddy fields as the latter measure involves considerable cost."

2. I may add that Dr. Srinivasa Rao who was present at the meeting "pointed out the desirability of requesting the Government with due deference to their order (vide para 6 of their Proceedings No. 8036-84 Med. 24-13-13 dated 24th February 1914) to enlighten the Committee as to the data on which the presence of paddy fields near residential areas is considered injurious" but the proposition when put to the vote was not carried - 6 voting for and 6 against it.

I have the honor to be,
Sir,
Your most obedient servant,
S. Appanna Iyengar
Secretary, Central Committee, M.I. Scheme

Enclosure No.

S U B J E C T.

Solicits orders on the resolution of the Central Committee in re removal of paddy fields away from residential areas.

PROCEEDINGS OF THE GOVERNMENT OF H.H.
THE MAHARAJA OF MYSORE.

Read:--

Paragraph 6 of Government Proceedings No.8036-84 dated 24th February 1914, Medl.24-13-13 suggesting among the measures needed for the improvement of the Malnad, the keeping of paddy fields at some distance from villages and other residential areas.

2. Letter No. 31 dated the 28th October 1915 from the Secretary, Central Committee Malnad Improvement Scheme submitting for orders a copy of the resolution of the Committee to the effect that it is more economical to shift residential area than to remove costly paddy fields.

Order ~~thereon~~ No. 4405-118amb04/15

Dated, Bangalore, the 17.12.15.

Government have no objection to the shifting of residential areas themselves away from paddy fields provided that the site chosen is situated on high dry ground and that steps are taken to lay out the houses, roads, drains etc., according to approved sanitary principles.
